Catering and Events

Hello!

Firstly, A massive thank you from me for choosing Global.

Having spent many years running restaurants across the country and travelling to all corners of the globe to train in various global flavours and techniques, my venture went solo in 2017 with a vision of bringing much of my experience, training and love for all things food to Weddings, Corporate Events and Parties and Events.

On my journey, I was fortunate enough to meet some fantastic people, and each of them possessed one key quality; they all prepare their food with an unrivaled love and passion and a burning desire to put a smile on the face of their guests. That same passion and drive is true of me and I hand pick every single team member for that same quality. It's the key to our success and the reason that we get it right time and time again; Passionate people.

Working with some great clients, we've travelled the width and breadth of the country delivering all kinds of flavours. We've BBQ'd in the Snow, Partied in (working!) churches, and transformed classrooms into commercial kitchens. Every single day of work for us is varied, fun and different. Our Aim is to bring that same fun and excitement to your big day.

With Love and Smiles,

Cel - Founder and Managing Director

Your Wedding, Your Way.

You'll notice on the website that we have a whole variety of Event/ wedding packages and options available to you- That's because every single package we put together is bespoke. You'll never find us serve your wedding menu anywhere else... It is truly unique to you and your fiance.

Why do we do it like that?... well, every couple is different and every wedding party is even more unique! The first question we will ask you when you get in touch is:

'What do YOU BOTH enjoy eating and how can we help you make your day that little bit more personal and special to you?'

Once we know a little bit more about you and the things that you enjoy, only then will we start the menu planning journey.

Global Kitchen

Catering and Events

We're going to share some menus with you.

But don't forget that these menus are made perfect for other couples on their big day.

Whilst we absolutely wish that you love them too, we're very happy to design something for you and your partner.
